## FIELD TRIP PLANNING KIT

This planning kit is designed to acquaint you with the various procedures and requirements to insure your Field Trip outing will be long remembered!

**IMPORTANT: EACH SKIER MUST KNOW HIS/HER HEIGHT, WEIGHT, AGE AND SHOE SIZE UPON ARRIVAL.**

1. When your group arrives, the Field Trip Director should check in with the parking lot attendant (special parking for buses). The students should remain together on the bus. The parking lot attendant will dismiss the students to the cafeteria for orientation.
2. Please note that we often conduct more than one Field Trip per day and we schedule orientations accordingly. However due to weather; road conditions; mechanical problems, etc., it's sometimes necessary to make a slight adjustment in time. We appreciate your understanding and patience if this should occur.
3. The Field Trip Director will proceed to the ski area office where lift tickets and rental cards are purchased. Please pay by cash, or one check. No two party checks accepted.
4. The Field Trip Director will be asked to leave an I.D. (driver license, credit card, etc.) as a deposit for return of all rental equipment.
5. Orientation includes familiarization of our facility and skier safety tips. Lift tickets will be passed out. If your group did not complete the rental cards in advance, they will be done at this time.
6. After orientation you will proceed to the rental building to be outfitted with ski equipment. Next comes lessons and an afternoon of FUN!
